

Bedsore-free systems silicone fibre filled

CS - 03

Wheelchair pad

The cushion is made of millions of silicone-coated cylindrical hollow cored fibers. These resilient fibers provide excellent pressure relief while the silicone coating acts as a lubricant to eliminate friction and reduces shear forces.

Hypoallergenic material – Hospital proven effectiveness, this cushion insulates against hot and cold and it is reversible: one side of cotton polyester for maximum comfort and the other side of waterproof polyurethane coating for the incontinent patient.

Size: cm 43x43x11.

CS - 02

Wheelchair pad with padded protection on the 3 sides

As for the mod. CS-03, also this cushion is excellent for the prevention of the decubitus ulcers and has padded sides and back to complement the padded seat.

Size of the cushion : cm 43x43. Lateral protection height: cm 38.
Height of the back protection : cm 50

CS - 01

Commode ring with central hole

The model CS-01 is the cushion with a central hole for commodes. It is equipped with 2 Velcro® straps to fix it to the W.C.. It is reversible: one side of cotton polyester for maximum comfort and the other side with waterproof polyurethane coating for the incontinent patients.

Size: cm 43x40x7.

Mattresses

The comfort your patients deserve..... The protection that must be provided!

Patient comfort and patient protection can be assured now with the Softech bed pad (mattresses). We accomplish this without motors, cables or electrical cords.....nothing to break down or get in your way.

The Softech bed pad is made of millions of silicone-coated cylindrical hollow cored fibers. These resilient fibers provide excellent pressure relief while the silicone coating acts as a lubricant to eliminate friction and reduces shear forces. The silicone coating also prevents the fibers from absorbing perspiration or urine. Retention straps on all four corners keep the mattress cushion firmly in place during routine patient care. The cushion is washable and reusable; simply launder in an institutional system and dry.

Features :

- Excellent pressure reduction
- Reduces shear forces
- Insulating against hot or cold
- Breathable – reduces over-heating
- Reversible : one side of cotton polyester, the other of waterproof polyurethane coating
- Reusable : machine washable and quick drying
- 4-edge fixing by elastic band
- Radio translucent
- Hypoallergenic material
- Complies with flammability standards
- Hospital proven effectiveness

MT – 01 Single-section mattress

Mattress size :
200 cm x 90 cm

MT – 02 Three-section mattress

Mattress size :
200 cm x 90 cm

Features :

- Excellent pressure reduction
- Reduces shear forces
- Insulating against hot or cold
- Breathable – reduces over-heating
- Polyester
- Reusable : machine washable and quick drying
- 4-edge fixing by elastic band
- Radio translucent
- Hypoallergenic material
- Hospital proven effectiveness
- The cover contains 3 big pads
- It is possible to clean the cover only
