

Schure Slide XLT, Rigid

Unique design improves weight distribution

Schure Slide XLT is an extremely durable patient transfer device, rigid and smooth-surfaced. The XLT has a unique design with cut-outs at the center-edge for even better weight-distribution when transferring the supine patient. No recovery room or emergency room should be without one.

Features

- *Speed-up turnover time – hang Schure Slide in every O.R*
- *Won't stain – spray and wipe clean*
- *Radiolucent and not made with natural rubber latex*
- *Non-disposable, no need to waste red bags*
- *Reduce back injuries and increase patient comfort*
- *72"L x 22"W x 3/16" (183cm x 56cm x .5cm)*

#800-0120 Schure Slide XLT, Rigid

Important! Please note that the Schure Slides are made for sliding a patient from one surface to another and are not constructed to support patient weight.
